WHAT ARE SOME OF THE BENEFITS TO *New Windows?*

New and replacement windows can dramatically enhance the look and feel of your home. Upgrading your windows presents a unique opportunity to make impactful changes in your home by bringing in more light or airflow, expanding an existing window to frame a view or adding a new architectural style or finish color. **They can also increase your home's value and add energy-efficiency.**

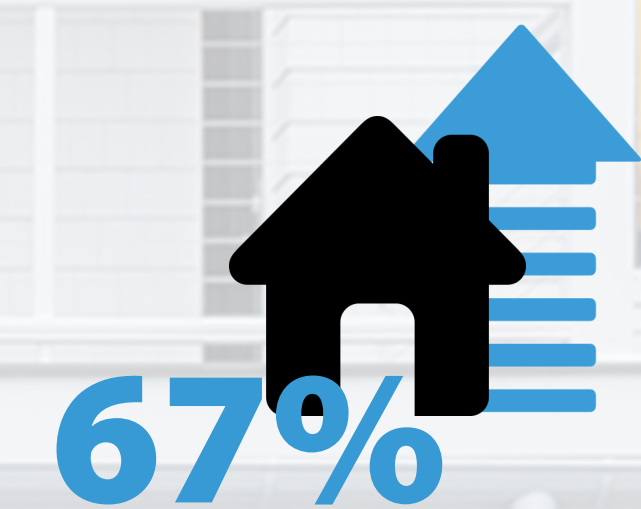

GNH is proud to carry a wide selection of window brands. Whatever your style or budget, we will help you find new or replacement windows to match your family's needs.

22%

Energy and Cost Savings

According to Energy Star, replacing single-pane windows can save up to **\$366 a year (or 22%)** for an average household in our region.

67%

Home Value Increase

When adding new vinyl windows, you can regain **67% of project cost in added home value** - according to NARI's "2022 Remodeling Impact Report." For the average home, the cost recovered is around **\$20,000** if you should decide to sell your house. **Wow!**

Aesthetic Improvement

If you're looking to update the style of your home, new windows can increase your curb appeal and give your home a fresh look!

By choosing **ENERGY STAR** certified windows, you can potentially save, on average:

22% a year for single-pane replacement

9% a year for double-pane replacement

That's **\$366!***

That's **\$134!***

* According to Energy Star

Protecting your Valuables

ENERGY STAR certified windows have coatings that keep out the summer heat and act like sunscreen for your house, protecting your valuables from harmful, fading ultraviolet light without noticeably reducing visible light. These special coatings **reduce fading by up to 75 percent.**

Heating & Cooling

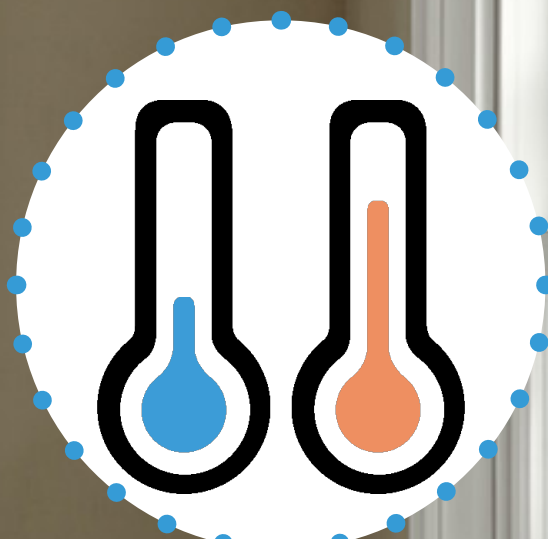

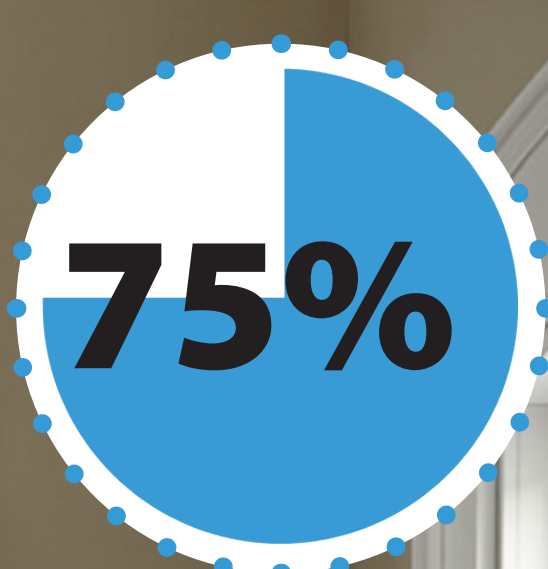

A standard double-pane window allows approximately 75 percent of the sun's heat into your home.

With ENERGY STAR certified windows, the interior glass stays warmer, so you can enjoy your window seat even when the temperature outside dips well below freezing.

Creating a Space You Love

There's no greater benefit to new windows, than creating an open, airy and light-filled space for you and your family to enjoy for many years to come!

GNH offers a wide range of energy-efficient window options. Our GNH experts will work with you or your builders to ensure your vision becomes a reality. Not to mention, we specialize in unique sizes and trim details for all types of home styles, from historic to modern.
